Node.js (10/16 lines)

JavaScript is the shit
so nodeJS kinda kills it
Armed with my laptop, running NodeJS
Got my callback functions, you know I'm dangerous
Hit that localhost, cruisin on express
if you're using flask, you haven't experienced the best
nodemon is my jam
fixing my mistakes, like my fam
People who hate on JS are so crass,
about to go nodejitsu on their ass

👍👎 I don't get all the hype about type
(1, 1) Because for me, "Error: undefined" is just fine

Exam Week (16/16 lines)

Reading physics, writing lyrics
Sunday to Sunday, grindin on it
but I'm no noob, no fool
I know what it takes to stay in school
Man, I'm burning the midnight oil in Van Pelt,
Tryna hang with this cruel exam schedule I've been dealt
Three in a day; that's just not fair.
Pleading with the teachers but they just don't care.
These exams are difficult; no justification
Hey man Im just tryna get an education
but ye told us back in 04
that ain't no tuition for having no ambition
Pulled an all nighter, just woke up
Was chillin with the TA, call me a suck-up
J status on the track, this beat got sicker
F*** reading days yo! and pass the liquor
